## LARGE OUTSIDE BROADCAST VEHICLES RECENTLY COMPLETED BY MEGAHERTZ

Megahertz is one of the longest-established independent broadcast systems integrators in the world. The company specialises in the bespoke design, construction and installation of video and audio broadcast and media systems – including television studios, Outside Broadcast and SNG vehicles and multi-platform transmission infrastructure – for its global customer base of media, broadcast and telecommunications companies. Here are some of the latest outside broadcast vehicles that Megahertz has built in recent years:
